

Improvement of the individual work methods with people experiencing particular difficulties on the labour market

Institution/Organization:

Voivodship Labour Office in Torun, Poland

Programme/Initiative:

Operational Programme Human Capital (for Polish Partner)
Priority VI *The labour market open for all*

Partners being sought:

Public employment services

Project description:

General objective of the project is strengthening and development of public employment services in regions through exchange of information, experiences and good practices in the field of individual work methods with people experiencing particular difficulties on the labour market through: **identification of the work methods and practices** in Kujawsko-Pomorskie Region and partners' regions from UE in the field of working with people experiencing particular difficulties on the labour market (people 45+, women, long-term unemployed persons, people from rural areas), **comparative analyses** and selection of the best method and practices in participating regions/institutions; **working out of a new (or adaptation of the best) individual work, testing it** and **preparation of a manual** of the new approach, dissemination of the new (or the best) method and practices among the PES staff in participating regions/institutions.

Time of realization:

2009 - 2010 (tbd)
