<b>Organisation:</b>	Adult education in Kungälv municipality. Project for young adults. Kungälv is situated in the south west of Sweden and has approximately 35 000 inhabitants.  At the adult education department we work with all adults regardless of age and previous experience. Thanks to a close cooperation with other municipalities in the region we can offer courses in a wide range of subjects and students.
<b>Project idea:</b>	The Municipality of Kungälv is working with unemployed young adults, age 19-29. During spring 2010, a successful theatre project was developed where the participants learned about all aspects needed to set up a play; light, sound, make up, branding, economy, acting and much more. This project has been very successful and the participants have developed into stronger and more confident adults with a clearer view over their strengths and a better idea of what work they would like to undertake in the future. The main aim of the project was not to train artists but to help young adults find their own way in life.  Kungälv is now looking to further develop this project and to add a transnational dimension.
